

International Federation for Home Economics (IFHE)

CALL FOR ABSTRACTS

XXIV World Congress 2020

Submit June 1, 2019 to August 31, 2019

Congress theme: "*HOME ECONOMICS: Soaring Toward Sustainable Development*"

CRITERIA FOR ACCEPTANCE OF ABSTRACTS

1. The first author must be an individual member of IFHE by **August 31, 2019** and must pay full Congress registration no later than **April 10, 2020**. A person may submit only **two** abstracts as **first** author; a third abstract may be submitted for a meeting.
2. Submission constitutes a commitment of the author(s) to present in person, if accepted.
3. All applications must be submitted online in English using the link on the Congress website.
4. Abstracts will be selected on the basis of significant merit and relevance to the Congress theme (see Congress model & matrix below). They should be related to Systems of Action and the Sustainable Development Goals, and have implication for individuals, families/households and/or other audiences.
5. Research abstracts must be unpublished work.
6. Abstracts must be a maximum of **300 words** and follow the abstract form.
7. Abstract review will be conducted by: research - IFHE Research Committee; best practices - IFHE Regional Vice-Presidents; Exhibition - IFHE Textiles and Design Committee; and Meetings - IFHE Congress Committee
8. Notification of acceptance will be emailed to the applicant by **December 15, 2019**.

FULL PAPERS DUE FEBRUARY 28, 2020

Full papers must be: accepted for oral presentation, presented at Congress, unpublished, a maximum of **5000-6000 words**, and include the title, with no identification of the author(s). Accepted papers will be eligible to enter the peer review process and if successful, will be included as a future publication in the *International Journal of Home Economics*, the official, peer reviewed journal of IFHE. The peer review process will be based on the paper submitted and there is no iterative capacity for feedback or revision. IFHE editorial board reviewers will make the final selection. Best peer reviewed paper awards will be presented at the 2020 World Congress.

PRESENTATION CATEGORIES

Abstracts will be grouped around shared themes in 90-minute sessions. Categories:

Research	Oral, Poster, Symposium, or Workshop*
Best Practices	Oral, Poster, Symposium, or Workshop*
Exhibition	Textile (fabric, garment or accessory related to Congress theme)
Meeting	Program committee, international collaboration or other group meeting

*Oral: 15-20 minutes

Poster: 36 x 48 inches - presenter with poster first 30 minutes

Symposium: group presentation/panel discussion focused on the Congress theme

Workshop: session related to Congress theme/IFHE Program Committee effort or issue

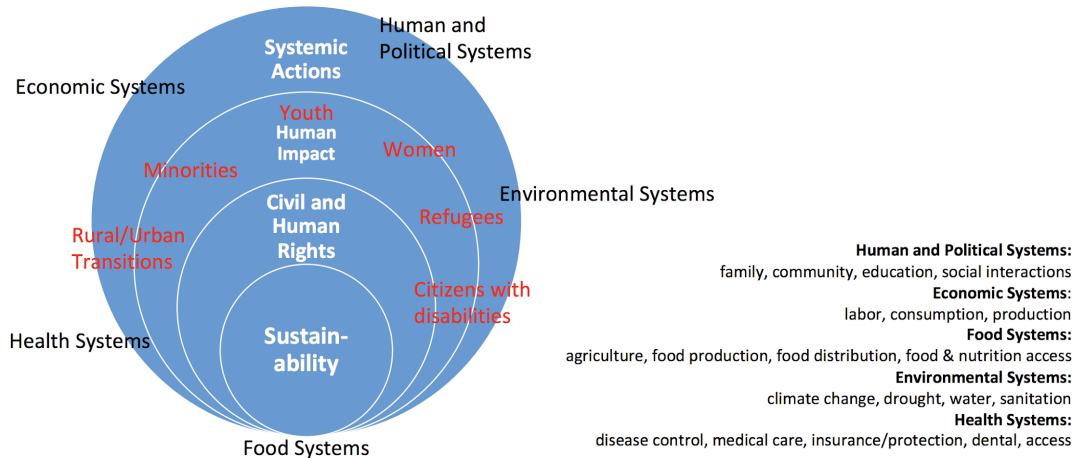

ABSTRACT FORM

1. Title of Abstract
2. First Author, e.g.: S. HOLMES
 - a. Email address
 - b. Field of concentration (consumer, family, foods, technology, etc.); Number of years in the field
 - c. Place of employment; Country
3. Name of co-author(s), e.g.: S. HOLMES, J.WATSON and P. HAROLD
4. Category: full paper; research, best practice, oral, poster; symposium, workshop, exhibition, meeting
5. Abstract format must identify matrix connections(s) and 3-5 key words related to the matrix, plus:
 - a. Research - introduction, method/s, findings, and conclusions/implications/recommendations
 - b. Best practice - objective and description
 - c. Exhibition - objective, description (including processes, techniques and materials), three jpg photos (front, back & designers' choice)
 - d. Meeting - description

CONGRESS MODEL

Home Economics: Soaring Toward Sustainable Development

(Science and Technology integrated throughout)

- **Ecological, Integrative Perspective.** The International Federation for Home Economics (IFHE) 2020 World Congress theme, *Home Economics: Soaring Toward Sustainable Development*, provides a broad perspective that reflects the integrative character of the field of home economics. Addressing complex interrelated human and environmental problems, it is reliant on the human ecological model (Bronfenbrenner, 1986; Bubolz & Sontag, 1993), to portray the dynamic interactions affecting and influencing individual, family, and community life.
- **Sustainable Development—a Global, Professional Commitment.** An International Non-Governmental Organisation (INGO) holding consultative status with the United Nations (ECOSOC, FAO, UNESCO), the IFHE brings focus to six of the Sustainable Development Goals (SDGs), committed to ending poverty and hunger, promoting good health, well-being and gender equality, providing water and sanitation for all, and promoting and developing sustainable consumption and production patterns.
- **Civil and Human Rights—Core Professional Practice:** Atlanta, Georgia USA represents the United States center for human and civil rights and will serve as an appropriate backdrop for IFHE and home economics professionals utilizing a humanistic lens to examine issues of justice.
- **Human Impact: Serving Vulnerable Audiences:** IFHE and home economics professionals examine how quality of life varies for multiple population sectors directly resulting from the interrelationship of sustainability and civil/human rights concerns. The SDGs identify multiple sectors of the world population that struggle due to a lack of civil/human rights, including women; youth; aging; refugees; minorities; citizens with disabilities; and those experiencing rural/urban migration, among others.
- **Systemic Action: Challenges and Opportunities:** With concern for vulnerable audiences, IFHE and home economics professionals, through scientific and technological examination and applications, aim to redress negative systemic actions contributing to the challenges faced by individuals, families and communities, while promoting positive systemic actions that improve quality of life. The status of individuals, families, and communities is impacted across various systems, including: food, health, economic, environmental, and human/political systems.
- **Program Organization:** Plenary keynote presentations, related symposia, workshops, concurrent sessions, and the inaugural Learning Day on the Move provide the structure for deep exploration of the Congress theme and model. Proposed speakers demonstrate expertise across the thematic model and share a breadth of global experiences that will facilitate dialogue with and among home economics professionals.
